Industry Stats

YapStar is unique in its concept. It combines three different market categories that are showing phenomenal growth.

These categories are:

Pet Industry

- \$43 Billion revenue in 2008 projected to grow to \$45.4 Billion in 2009.
- 63% of U.S. households own a pet, which equates to 71.1 millions homes.

Social Networking

- Between December 2007 and December 2008, social networking and blogging sites combined reached 66.8 per cent of the world's online population.
- Social Networking sites account for one in every 11 minutes spent online worldwide.
- Advertising dollars are expected to grow with \$920 million being spent on social networking sites in the US in 2007 and a projected \$2.3 billion in 2009.

Local Search

- More than 113 billion searches were conducted in the U.S. during 2007.
- Local and national businesses advertising in local markets spent \$2.9 billion in 2007, with that number rising to \$7 billion in 2011.
- 74% of internet users perform local searches and 61% of local searches result in purchases .

YapStar Beta Site Facts

YapStar grew out of a beta site called The Pet Star which generated 149,141 visits and 2.3M page views in 3 months.

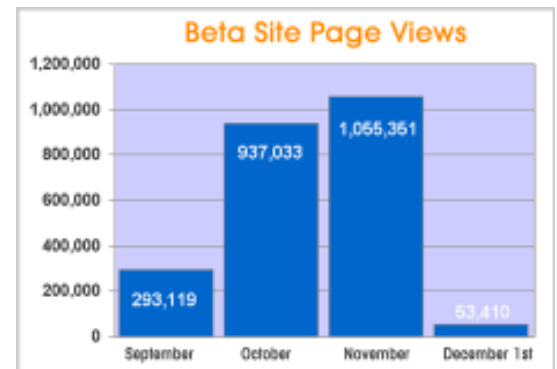

The Pet Star was centered around a quarterly contest where people could upload photos of their pets, create a pet profile, and send an e-vote card to their friends and family and have them vote for "The Pet Star".

This test site was online for 3 months and generated 149,141 visits and 2.3M page views. What was learned through this market test was the incredible viral nature of a site such as this. Pet owners marketed their own pet's web page to friends and family members, who then visited The Pet Star during the 3 month contest and voted 88,888 times and viewed 2.3M pages. No marketing was done during this beta test. In fact, this traffic was created solely by the pet owners own passion for their pets and their absolute belief that their pet was truly the most adorable pet on the planet. This kind of zeal and personal marketing effort by a site's users can only be seen in these types of passion-centric niche.

The meteoric rise of The Pet Star interest and traffic spurred us on to create a more robust site focusing not only on pet lovers but offering services to pet businesses, 48% of which do not have a Web site. So one of our goals is to make it easier than it's ever been for a pet business to create an online presence and reach their customer base in their neighborhood. YapStar essentially takes a traditional part of the business world -- word-of-mouth referrals -- and multiplies it to a previously unimaginable degree. YapStar offers pet businesses the ability to spread the word locally about their great services or pet products.

“ThePetStar.com just bounded online last month. Lovers of animal companions, it's time to get your tails over to your computer terminals and cast your ballots for the **cutest doggie and kitty in the world.**”

-- San Francisco Chronicle

Social Networking for Pet Lovers

Yapstar.com is the new Social Networking site just for pet lovers!

YapStar is rich in features that encourage Pet Lovers to socialize via photos, videos, fan clubs, local pet talk in user's hometowns, reviews of Local Pet Businesses and Cool Pet Products, giving and receiving compliments, and American Idol type contests.

Quarterly "American Idol" type contests allow users to win great prizes such as a weekend trip for two to great American cities, and a portrait of their pet by leading pet portrait artists.

“While growth is slowing at most top Internet sites, it is skyrocketing at sites focused on social networking, & local information.”
— *Washington Post*, April 2006

Private Pet Profile Pages allow users to manage all of these features, and Public Profile Pages lets the world learn all about your pet so that enough votes are garnered to win the "YapStar Contest".

Local Search and Review Pet Services

Find Pet Services in your Hometown

Ask any local business owner how they've grown their business and you'll inevitably hear customer referrals or word of mouth.

Word of mouth is the most powerful driver of local transactions, and at YapStar local searchers can find and research the best local veterinarians, groomers, trainers, walkers, pet friendly hotels, and more;

find their locations using mapping tools; and most importantly find out what your neighbors have to say about these services before making the call to, or visiting the business.

YapStar is the equivalent of hanging out at your neighborhood dog park, and asking, "hey, does anyone know of a good vet in town?" and getting the real scoop on the good and bad from a trusted source, a community of passionate pet lovers.

“Local searches very often result in a consumer taking action. In 2006 47% of local searchers visited a merchant as a result of performing the search at an earlier time.”

Each search result is accompanied by a phone number, street address, and can include marketing information, store hours, photos and website address. Clicking on a business name delivers a new page featuring an easy-to-read map, directions, and reviews from YapStar users. If needed, users can expand their results to include listings within a 5-mile, 10-mile, 25-mile, or 100-mile radius of a specific location.

YapStar CoolPick Pet Products

We hand pick pet products we think are cool or unique

At YapStar, we choose products we think are cool, unusual in some way, or just great products and worthy of the YapStar Thumbs Up. Our team of four legged and two legged testers review each product we put on YapStar for quality of product, fair price and of course whether our pets love the product.

YapStars live on the site, messaging one another about their loved dogs and cats, joining fan clubs, promoting their pets to win the coveted YapStar contest, and a lot of other cool stuff.

That's the social-networking part. But there's a point to all the yapping: finding cool pet products. Social networking, offers a new form of word-of-mouth 'advertising', and is changing the way businesses do their marketing.

"In the real world we ask our friends and family, 'What products do you use?' to help us discover the products that will be the best for our pets. Today there are almost too many

choices. At YapStar we take the combination of our user's recommendations and our 10 years experience in the pet industry to bring to our users what we consider to be the best of the best pet products. The rest is up to our users, to ask each other, "What do you think is cool?" in a fun, and productive way."

Yapstar helping Pet Businesses Online

Pet Business Center Features:

YapStar has been developed from day one with our customers, pet businesses and pet product manufacturers as a primary consideration. Now pet businesses can reach their local customers, and receive new business from ratings and reviews as well as manage their online presence through the YapStar Business Center. Using a user name and password to access a custom Business Center anywhere, anytime; pet businesses can now manage their online presence by:

“Ask any local business owner how she’s grown her company and you’ll inevitably hear customer referrals or **word of mouth.**”

— Andy Beale, March 2006

- Access current ratings on YapStar.
- Read customer reviews.
- Change or enhance listing type.
- Update marketing information at any time.
- Create or edit special offers for customers.
- Create links to stores that carry products so users can purchase products easily.
- Track how often customers have made business or product a favorite.
- Upload or edit company logo.
- Upload or edit a photo.
- Use YapStar marketing tools to promote pet businesses or pet products.
